

Corporate Overview Presentation

Welcome to
DB AUTOMOTIVES,

DB AUTOMOTIVES Provides Complete Solutions Including With The Design And Development Of Wiring Harness For Electrical Vehicles & Automotive Wiring Harness.

In DB AUTOMOTIVES All Members Experienced in Design and Development ,Schematic, Electrical ,Mechanical, Customer Support, Marketing, all Wiring Harness For Electrical Vehicles & Automotive Wiring Harness.

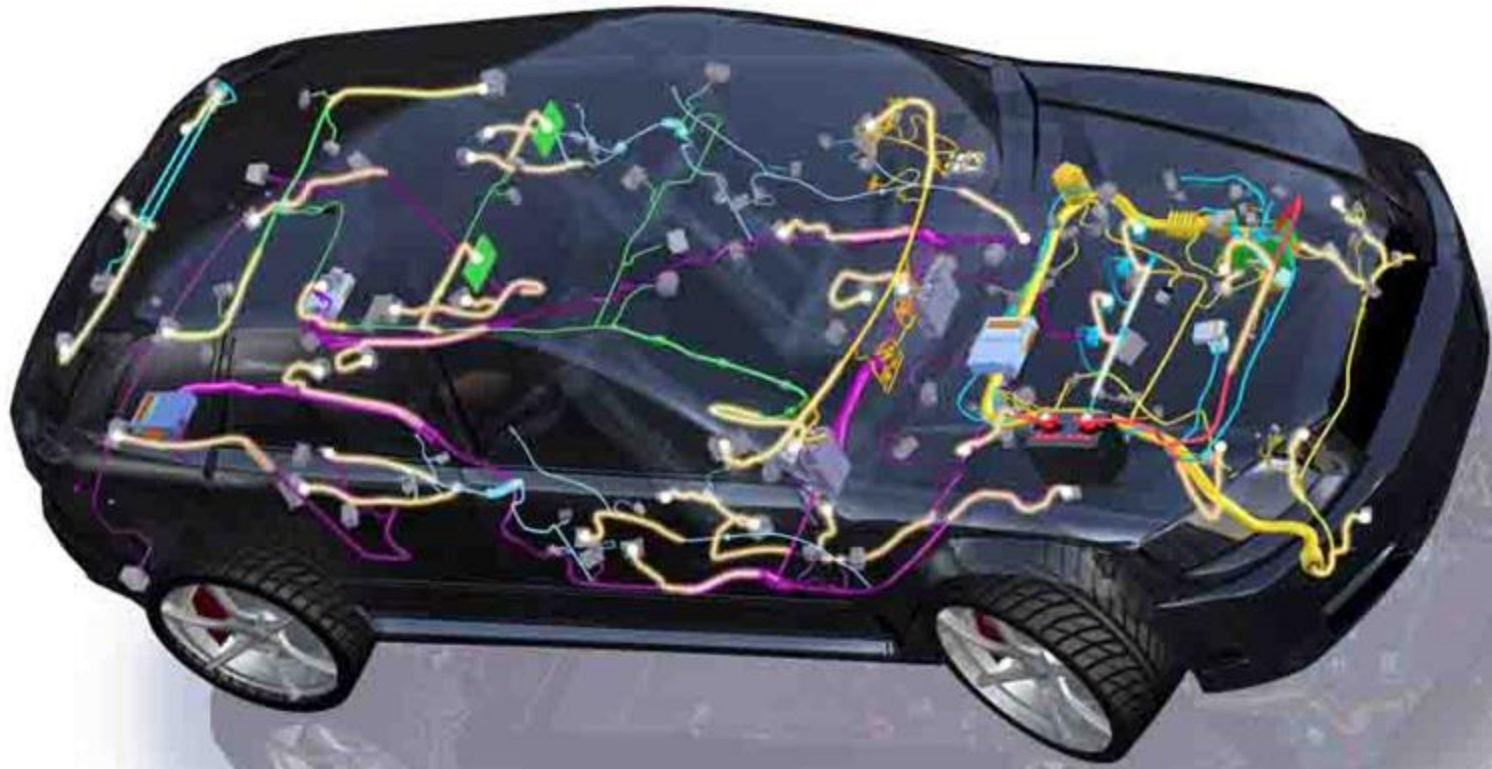

- **Product** : WIRING HARNESS FOR AUTOMOTIVE APPLICATIONS
AND TRADING OF ELECTRICAL WIRING HARNESS COMPONENT .

DB Automotives is providing Automotive Wiring harness .

- We have capability of design and development the wiring harness for various circuit like Engine, Instrument panel, Chassis front and rear etc. for military vehicle and others all type of automotive vehicle.
- DB Automotives provides complete solutions including design from basic vehicle Schematic,
- Development, prototyping, validation and manufacturing of wiring harnesses for passenger cars,
- Commercial vehicles, two & three wheelers, multi utility vehicles, Home appliances .
- DB Automotive provides complete Wiring Harness of **Defense Vehicle.**

Wire harnesses are assemblies of electrical cables that transmit signals in electrical applications. They are a bundle of loose wires grouped together into a single covering for a more organized system.

Wire harnesses are assemblies of electrical cables that transmit signals in electrical applications. They are a bundle of loose wires grouped together into a single covering for a more organized system.

Supplying the Wiring Harness as bellows

1. Supply Complete wiring Harness for Electric vehicle, Petrol Vehicle, Diesel Vehicle and CNG Vehicle in Variants ,Truck, Buses,4 Wheeler ,3 wheeler and 2 wheeler.
2. Wiring Harness for Engine Management System.
3. Wiring Harness for Interior Cabin and Instrument Panel.
4. Wiring harness for Military Vehicle and Off road Vehicle.

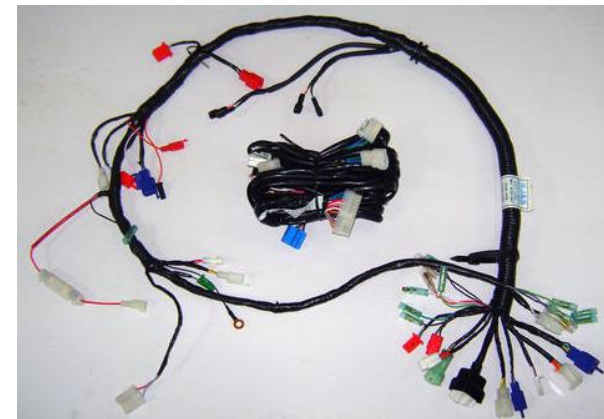

Electric Vehicle
Wiring Harness

IP Wiring Harness

Electric Vehicle Wiring Harness

Supplying the Defence Vehicle Wiring Harness as bellows

1. Supply Complete wiring Harness for LBPV ,M4,MPV, KM4 ,Military Vehicle.
2. Wiring Harness for Engine Management System.
3. Wiring Harness for Interior Cabin and Instrument Panel.
4. Wiring harness for Dashboard of Military Vehicle.

Military Vehicle
Wiring Harness

Main Wiring Harness

Military Vehicle Wiring Harness

Supplying the Electric Vehicle Wiring Harness as bellows

Electric Vehicle
Wiring Harness

Electric Vehicle Wiring Harness

Supplying the Defence Vehicle Wiring Harness as bellows

Automotive-transfer-case-wiring-harness

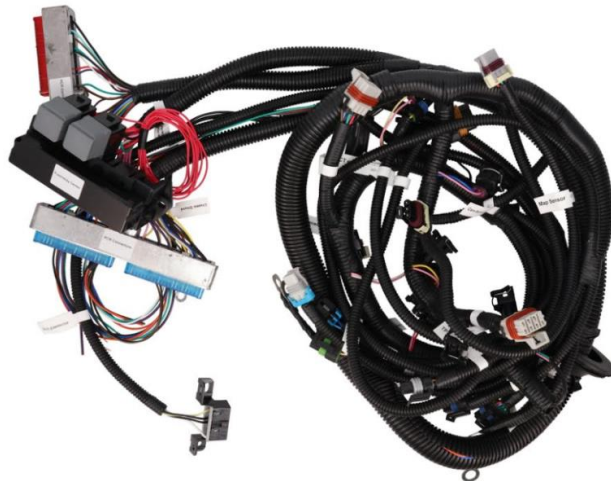

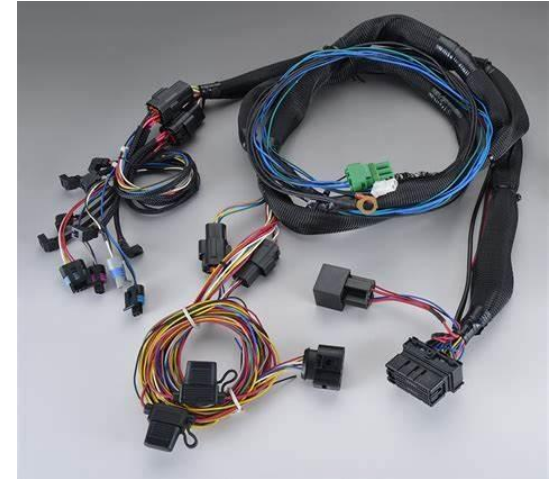

Military Vehicle Wiring Harness

Supplying the Converted Vehicle Wiring Harness DSL to CNG ,Petrol to CNG as bellows

Different Types Wiring-harness

Layout of the Wiring Harness as bellows

Battery cable with battery terminal

Battery cable with ground terminal

Shielded Cable _ Battery

AUTOMOTIVE CONNECTORS

Regular 70/90/110/250 Series
Sealed/Unsealed Male/Female
all types connector

Mating Connector/Inline Connectors
Regular/Hybrid

ECU /BCM connectors
of Bosch, TE, Delphi.

DC-DC Converter
for EV

Deutsch and Amphenol Connectors
And terminal

JPT Connectors
All aggregate connectors

FAKRA Connectors
Antenna connectors

Battery Charger for
EV

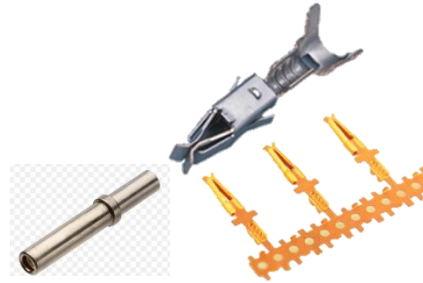

Connectors from the above manufactures are available in stocks

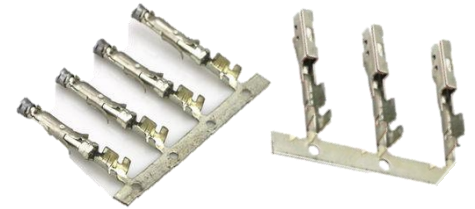

AUTOMOTIVE TERMINALS

Regular 70/90/110/250 Series
Sealed/Unsealed Male/Female
Gold/Silver/Tin plated

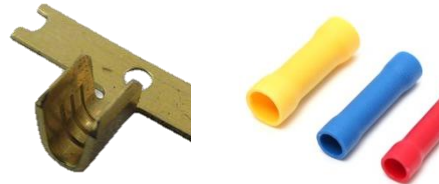

Special Terminals JPT & SPT
Gold/Silver/Tin plated

ECU /BCM connectors Terminals

Ring Terminals/ Eyelets
Earthling Terminals

All Types of Joint Terminals

Hand Tools for Crimping

Terminals from the above manufactures as well as local manufacturers are available in stocks

QUALITY

Accurate Components & Tools" conducts strict quality checks in order to meet the global standards and client specifications. We source quality raw materials like nylon 6 & 66, Nylon glass field, ABS, PPCP & PP, ABS, brass strips, etc. from reliable suppliers. At our in-house testing facility which is equipped with requisite testing instruments, our team of experts checks the complete process on the basis of international quality norms. This enables us to fulfill our prime objective to deliver the best quality products to our valued customers.

OUR TEAM

The dedication and hard work of our workforce aids us in designing and developing a quality approved range of Auto Electrical Parts & Wiring Harness, Stereo Wiring and Terminals. Our professionals possess rich industry experience and have extensive domain knowledge of their respective areas which enable them to manufacture a quality product range in the end. Moreover, they also work in close association with each other to meet the diverse requirements of our customers in a stipulated time frame.

Our workforce include following professionals:

Engineers

Technician

Quality controllers

R&D experts

Sales and marketing professionals

Skilled workers

VALUABLE CLIENTE

Being a client centric organization, we always strive hard to satisfy our clients optimally. Owing to our ethical business practices and fair dealings, we have garnered a spread out clientele. In addition, our timely delivery of consignment and competitive pricing policy also have helped us in achieving complete client satisfaction. Our clients' list is a testimonial to our client centric endeavors. We have not only managed too retain our previous clients but have also attracted new names.

Some of our esteemed clients are:

Bharat Forge Pvt.Ltd.

TARLE CONSTRUCTION EQUIPMENTS PVT LTD

Auto Firex Pvt.Ltd

Amphenol Interconnect India Pvt. Ltd

HOSE FIT LLP

Mahindra Groups

Motherson Technology

Tata Motors Ltd

Hindustan Motor Ltd.

Sasmos Ltd.

ASKRATECH Pvt. Ltd.

SREEJAY ENTERPRISES

ANALOGIC CONTROLS INDIA LTD.

Bosch Global Software Technologies

Why Us?

We have become one of the foremost choices of our customers in the domain of Auto Electrical Parts & Wiring Harness, Stereo Wiring and Terminals due to following factors:

ISO certified products

High quality basic material procured from trusted vendors

State-of-the-art infrastructure

Stringent quality control measures

Qualified engineers and technocrats

Competitive pricing policy

Timely delivery

Engineering services

Offshore Engineering services

DB Automotives also serves into Offshore engineering services for wiring harness Design and Manufacturing. However, this also includes operating and maintaining EV Services. We take care of your engineering standards and quality with on-time delivery
